PART 1: INTRODUCTION

WHAT IS JAPAN YOUTH SUMMIT?

The **Japan Youth Summit (JYS)** is an Innovative Project Competition organized by **Youth Break the Boundaries (YBB)**, dedicated to empowering young leaders to take an active role in shaping a sustainable future. As a prestigious platform, JYS brings together youth from across nations, cultures, and backgrounds under the spirit of **"Innovate for Tomorrow."**

At the heart of the summit lies the **Innovation and Technology Project Competition**, where participants design and present innovative projects that aim to create a real innovative impact. These projects are directly connected to the **United Nations Sustainable Development Goals (SDGs)**, with a primary focus on **SDG 4 (Quality of Education), SDG 9 (Industry, Innovation, and Infrastructure), SDG 11 (Sustainable Cities and Communities), SDG 12 (Responsible Consumption and Production), and SDG 13 (Climate Action).**

Delegates are placed into multicultural teams based on their chosen SDG, ensuring that every group reflects the richness of international perspectives. Through this process, youth not only learn to **collaborate across differences** but also strengthen essential leadership qualities such **as critical thinking, problem-solving, communication, and teamwork.**

The summit also provides recognition and visibility to outstanding ideas, with awards granted to the best projects that demonstrate innovation, feasibility, and impact. More than just a competition, JYS serves as a transformative journey where youth gain the confidence and capacity to **#LeadTheFuture** in their communities and beyond.

With the 2027 theme, " Youth Innovation for a World Without Limits" JYS continues its mission of nurturing young changemakers, celebrating diversity, and building global networks that transcend borders.

Essay question : What future challenge do you believe requires action today, and what innovative project could young people create to address it?

SDG 4
Quality Education

SDG 11
Sustainable Cities and Communities

SDG 9
Industry, Innovation and Infrastructure

SDG 12
Responsible Consumption and Production

SDG 13
Climate Action

Essay requirements

- Maximum 800 words
- Written in English
- Theme: Choose only one SDG focus
- Include data where relevant (with citation)

What makes a strong essay?

1. Clear structure
2. Strong arguments
3. Reflection on challenges
4. Realistic and scallable solutions

What we are looking for?

1. Clear understanding of a real problem
2. Critical thinking
3. Youth-led action
4. Sustainable solution (not one-time event)
5. Measurable impact

RECOMMENDED STRUCTURE

1	**Introduction** Begin with a concise introduction. Briefly introduce the issue within your chosen SDG and explain why it matters in your context. Clearly state your main argument: how a youth-driven initiative can move beyond short-term solutions and create long-term social and economic sustainability. You may briefly mention your project or area of focus, but avoid lengthy background narratives. Keep the introduction focused and purposeful.
2	**Problem Context** Describe the current condition in your community or country and identify the gap that needs to be addressed. Why is this issue urgent? What existing solutions are insufficient? If possible, support your explanation with relevant data. This section should demonstrate that you understand the issue beyond surface-level observation.
3	**Initiative / Experience** Explain what you have done (or are currently doing), and clearly define your role. Describe the challenges you encountered and how you addressed them. We are particularly interested in your leadership, decision-making process, and problem-solving ability. Avoid general claims; be specific about actions and outcomes.
4	**Sustainability and Long-Term Strategy** Explain how your initiative moves beyond a one-time event or short-term intervention. What makes it sustainable? Consider factors such as partnerships, funding models, community involvement, policy alignment, scalability, or systems change. Demonstrate how your project generates both social impact and economic value over time.
5	**Project Proposal** Include objectives and expected outcomes related to your subtopic.

REGISTRATION UPDATE AND COMMUNICATION

Here are the things that every participant should pay attention to after completing their registration:

01 Wait for Your Form Review

After submitting your registration form, please wait while the selection team reviews your submission. Once validated and accepted, you will receive a Letter of Invitation.

02 Understanding Your Letter of Invitation

- Receiving an Invitation Letter means your form has been verified and accepted by the committee.
- For Self-Funded participants, the Invitation Letter confirms that your registration is complete and valid.
- For Fully-Funded applicants, the Invitation Letter does not yet mean you are accepted as a fully-funded delegate. It indicates that your form has passed the first review stage and will proceed to the Essay Review and Interview Selection process.

03 Where to Access Your Letter of Invitation

- The Invitation Letter will be sent to your registered email address and can also be downloaded from the “Documents” tab on your account dashboard.

04 Documents Provided After Receiving the Letter of Invitation

Once your Invitation Letter is issued, you will have access to several documents to download, sign, and share:

- **Agreement Letter:**

This outlines program policies and serves as an agreement between participants and the organizer. It confirms your commitment to participate from registration until the end of the program. Download, sign, and upload this document again under the Documents tab in your account.

- **Sponsorship Proposal Template:**

Provided for participants who wish to seek external funding (from companies, organizations, or communities) to support their journey to the event. You may customize it according to your needs and budget.

- **Program Boarding Pass:**

05 How to Stay Updated During the Selection Process

While waiting for the Invitation Letter or selection results (sent in batches), please stay connected and updated through these official channels:

- The official website and social media platforms of Japan Youth Summit.
- Regular updates sent to your registered email (newsletters and important notices).
- Pre-Orientation Sessions announced on social media, held via Zoom and Instagram Live.

06 Official Group Invitation

The official participant group will only be opened and accessible to those who have made at least their first installment payment of the program fee.

07 Fully-Funded Participants — Confirmation of Attendance

Participants under the fully-funded registration scheme will be confirmed to attend the event after completing all selection stages, including essay review and interview.

08 Early Confirmation Option for Fully-Funded Applicants

- If you are a fully-funded applicant and wish to confirm your participation early, you may proceed with the program payment before the selection result.
- If you are later selected as a fully-funded delegate, your payment will be reimbursed accordingly.

09 For Fully-Funded Applicants Who Already Paid Program Fee but Not Selected as Fully Funded Delegate

- Applicants who have made payments under the fully-funded scheme will receive early group invitations.
- If you are not selected as a fully-funded participant after the interview, you may still attend the summit as a self-funded participant by completing the remaining program fee.

REFUND AND CANCELLATION POLICY

1	Please note that once the participant completes the payment, it serves as a confirmation of participation and attendance for the Japan Youth Summit.
2	**The payment is non-refundable under any circumstances.**
3	Once participants confirm their attendance, their names will be included in the official participant list and the hotel booking arrangements, as well as in the preparation for pre-orientation, seminar kits, and other pre-event benefits provided by the organizer.
4	If a participant decides to cancel their participation after confirmation, it will be considered as a cancellation with a non-transferable fee, since the costs and reservations have already been allocated and confirmed on behalf of the participant.
5	Reimbursement applies only for confirmed fully funded participants, in accordance with the terms communicated directly by the organizing committee.

VISA POLICY

1	**Visa processing is not included in the program fee** and not part of the fully funded benefits. Each participant is responsible for obtaining their own visa according to the visa regulations of their respective countries.
2	Because visa requirements vary by nationality, participants are **strongly advised to consult a trusted travel agency or the Embassy of Japan in their home country** for accurate and updated information regarding visa application procedures.
3	**To support your visa application**, the organizing committee will provide the following official documents, **after completing Installment Batch 1:** • Letter of Invitation • Guarantee Letter • Hotel Booking Confirmation (under your registered name)
4	Please note that **the organizer is not responsible for visa approval or rejection,** as the decision lies solely with the Japan Embassy and is influenced by your personal travel history, financial statement, and other supporting documents.
5	For first-time travelers or participants without extensive travel records, **it is strongly recommended to apply for a Tourist Visa rather than a Business or Conference Visa**, as it offers a higher likelihood of approval.

Special Note: **For Indonesian citizens (WNI) holding e-passports**, visa-free entry to Japan is valid for short visits up to **15 days after pre-departure registration (*Visa Waiver*)**.
